APPLICATION/CONTRACT FOR RESIDENCE HALLS

--	--	--	--

--

On occasion, individual or group problems arise that may impact the health, welfare, safety, or security of residents, and adversely affect the academic or general environment of a particular residential area. In such instances, University Housing and Dining Services reserves the right to make hall or room reassignments as may be deemed necessary to resolve said problems.

If one occupant of a double room moves, the remaining occupant, at the discretion of the University, may (1) retain the double room accommodation with a new roommate of his/her choice, (2) be assigned to another double room, or (3) be assigned a roommate by the University Housing and Dining Services Office. If a student chooses to be assigned a roommate by the University Housing and Dining Services Office, they must keep half of the room clear of their items so a roommate can be assigned at any time. Only if an additional charge is assessed, will one resident be permitted to fully occupy a double room. This policy may change based upon available space.

### III. PERIOD OF OCCUPANCY

The Contract is for the ENTIRE
